

6 July 2017

**Omega Diagnostics Group PLC  
("Omega" or the "Company")**

**Sale and leaseback of the building owned by Omega GmbH**

Omega (AIM: ODX), the medical diagnostics company focused on allergy, food intolerance and infectious disease, announces that it has concluded the sale and leaseback of the building owned by its wholly owned subsidiary, Omega Diagnostics GmbH.

The Company will receive gross proceeds of €800,000 and has simultaneously entered into a contract with the new landlord to lease the facility back over 15 years. A rent deposit of just under €100,000 will be retained by the landlord initially but which will reduce in stages of five-year periods.

As announced last week, the Company is proposing to raise funds from new and existing shareholders via a placing and open offer, subject to shareholder approval which will be sought at the General Meeting on 18 July 2017. The proceeds from the building sale will be used by the Company for its accelerated growth strategy as outlined in the circular sent to shareholders on 30 June 2017.

**Kieron Harbinson, Chief Financial Officer of the Company commented:** *"We are pleased to be able to supplement our proposed fundraising from the placing and open offer with the sale proceeds from this property transaction. The timing makes good sense as we embark on our accelerated growth strategy and given where the current euro/pound exchange rate sits."*

The information communicated in this announcement is inside information for the purposes of Article 7 of EU Regulation 596/2014.
